COMSEC TRAINING & OPERATIONS

IIF Data Solutions, INC. (IIF) serves the military, government, and private sectors operating a COMSEC account or using COMSEC equipment with a broad range of services in the areas of: COMSEC Account Certification Training, COMSEC Equipment Training, and COMSEC Account Consulting and Full-Service Operations.

Founded in 1998, IIF provides experientially-based full life-cycle COMSEC Account planning, operations, maintenance, and training. IIF is a Ft. Gordon, GA approved satellite for the Standardized Communications Security COMSEC Custodian Course (SCCC).

AREAS OF EXPERTISE

- COMSEC custodian, administrative and inspector courses
- COMSEC equipment training (STE, KSV-21, SKL, LMD/KP, Dial-up, SIPRNET, etc.)
- COMSEC program evaluation and pre-inspection assistance
- Army Key Management Software (AKMS) evaluation and training
- COMSEC policy development and updates (Army AC, USAR, ARNG and NSA)
- COMSEC Deployment and operations planning/evaluation
- Hand Receipt and CCI accountability training

COMSEC TRAINING & OPERATIONS

The IIF COMSEC Operations Team is comprised of experienced professionals, each possessing subject matter expertise and years of experience in COMSEC Account planning, operations, maintenance, and training.

The IIF professionals are nationally recognized leaders in COMSEC Account operations and training. Led by Mr. Tobe Fulford, our COMSEC Team has years of experience of operating accounts, teaching every available COMSEC related course, and a record of account excellence.

COMSEC TRAINING

IIF offers full spectrum COMSEC account training to any organization owning a recognized DoD or NSA COMSEC account, hand-receipts COMSEC equipment or handles Controlled Cryptographic Item (CCI) materials. Additionally, orientation and familiarization training is available for commanders and supervisors of personnel overseeing COMSEC accounts and equipment.

ACCOUNT TRAINING INCLUDES:

- Standardized COMSEC Custodian Course (SCCC)
- COMSEC Administrative Course
- COMSEC Refresher Training
- Command COMSEC Inspector Certification Course (CCICC)
- Information System Security Program (ISSP)
- Army Key Management Systems (AKMS) Refresher Training
- Local COMSEC Management Software (LCMS) Refresher Training
- LMD/KP Refresher Training

EQUIPMENT TRAINING INCLUDES:

- Secure Terminal Equipment (STE)
- Data Transfer Device (DTD)
- Simple Key Loader (SKL)
- KSV-21
- Electronic key transfer using STE
- SIPRNET Dial-up using the STE
- Key Processor (KOK-22A)

CONSULTING AND TECHNICAL ASSISTANCE

Inspection Preparation: IIF provides premier consulting services to evaluate, remedy, and prepare COMSEC accounts for Army Audits and Command Inspections. This includes evaluation, performing corrective actions, documenting results, and training custodians. Our past performance guarantees that accounts pass the inspection or audit. Additionally, we can perform COMSEC facility physical security evaluations for both planning and inspection purposes.

Policy Writing: Our experienced staff has been involved with developing, writing, updating, and training COMSEC policy for the US Army and subordinate units. We can assist in developing unit/organization COMSEC implementation policy and directives.
