**Medical Centers** must have the ability to effectively respond and recover from contingency situations that could adversely affect the continuity of patient care or hospital operations.

We will work with you to meet the Joint Commission Accreditation and Certification Standards.

*IIF can assist you in addressing standards listed below:*

**D**evelop, implement, and evaluate your comprehensive emergency and all-hazards plan including weapons of mass destruction.

**P**rovide emergency management training for your medical center staff.

**C**onduct exercises to enable your staff to practice and evaluate activation, response, and the resumption of normal operational activities.

**C**oordinate with local/county/state emergency management entities, and public and private hospitals to ensure compatibility of emergency plans and procedures.

*We offer Emergency Management Training Courses ,Large / Small Scale Field, and Tabletop Exercises*
